

OUR CHILDREN AND FUTURE GENERATIONS

“IT IS INAPPROPRIATE FOR CIVIL GOVERNMENTS TO HEAP DEBT UPON THE BACKS OF OUR CHILDREN AND FUTURE GENERATIONS”

Justin Trudeau is saddling our children and grandchildren with generations of debt that can only be paid with higher taxes.

Now Justin Trudeau would have you believe that this debt is a result of the COVID-19 pandemic.

But the truth is that the spending started the minute he became Prime Minister.

Since 2015 Justin Trudeau racked up well over \$100 billion in debt, which was spent on failed Liberal pet projects and foreign aid to wealthy countries.

So what did you get for this \$100 billion?

WELL, I KNOW YOU GOT HIGHER TAXES. HIGHER TAXES ON YOUR INCOME, HIGHER TAXES ON YOUR GASOLINE AND HIGHER TAXES ON YOUR HOME HEATING.

Now Trudeau argues it's all well and fine because Canada has a low debt-to-GDP ratio.

But what does that even mean?

The truth is that the debt-to-GDP ratio is Trudeau's way of saying Liberals can raise taxes on future generations to pay this debt.

As Prime Minister, I'll end the wasteful spending, balance the budget and stop sending your tax dollars to wealthy foreign countries.

We owe it to future generations.

It's immoral to make our children and grandchildren pay for our mistakes.

Together, we can take back Canada and preserve our country's economic prosperity by defeating Justin Trudeau's government.

Hon. Erin O'Toole, P.C., C.D., M.P.
